# Introduction

---

Firstly, I would like to welcome and thank you for subscribing and I hope you will get a ton of information value here.

*My name is Isabel Da Guerra and I have been an online marketer since June 2006. I have had my fair share of up's and down's in this industry like many, however due to perseverance and belief I have pulled through to what I believe is a comfortable lifestyle and aah! still growing ☺*

The reason I am telling you this is because YOU CAN TOO!

I don't know you and you don't know me... but you have put enough trust and you are here obviously for ONE thing only. To BIG MAKE MONEY online!

I am here to help you get on that road fast!

I have setup an email so you can get hold of me for personal support. Because I care and nothing would give me greater pleasure than see you make decent, 'BIG' decent money online, with the shortest possible amount of time and frustration.

[wac410@gmail.com](mailto:wac410@gmail.com)

***Please do not SPAM me because 1. You will be booted out fast! 2. I will not buy your product either!***

So let's get started... (Next page)

# Basic Strategy for Your Rapid Success

Now is the time to decide... Will you be hopping from one product purchase to another or will you stop buying every 'get-rich-quick' product out there and keep focus?

**“What? ... I don't understand? Aren't you a marketer? Don't you want my money?”**

Heck! Yah?! As an Internet marketer I count on that, however, I will be brutally honest with you here. ***I do not want your money if*** you will not use what you purchase from me. So if you understand my logic so far and you are still in, then let me continue...

## The 3 Most Logical Rules - Simple yet the Hardest to Follow

Now, I want you to do 3 things and please promise yourself that you are going to do it!

- 1. FOCUS** – Stop checking your emails, or doing menial tasks when you know full-well that you have serious work to do!
- 2. TAKE ACTION** – Discipline yourself to draw up your itinerary last thing in the day's work, and go through it first thing in

the day, listing and ticking-off all important tasks to be done first. It works, I do it.

- 3. STOP BUYING** every single product that comes your way! Honestly... ***You should only buy products that you need there and then*** for you to complete your project at hand!

**“That's crazy... I need to be up-to-date with what's going on out there?!”**

Yes, in a way you do, but not now! Let me explain why...

I am willing to bet that the reason you have landed here is because YOU ARE NOT RICH!  
Yet!

Am I right? And I am willing to bet that you have failed to comply with one, or even all 3 logical rules above ☺

True, as you move along with any project, you might need software or an info-product to complete the task you're busy with... then ONCE YOU HAVE MASTERED IT... Only then, do you go to the next... and so forth... Got it?

## Fear of Losing-Out and the Urgent Buy-Now Tactics

**Fact:** How about me telling you those loop-holes, *secret keys, push buttons* don't exist!

**Nothing is NEW!** It has been there all along both on the Internet or offline marketing, and is either re-hashed or if you're fortunate, you might purchase a super-duper product that is ingeniously re-constructed from scratch by a very smart marketer... But guess what? Pretty soon you will notice that a similar one, and yet another and another shows up. So yes... someone else will come along with a better idea! You will not be left behind. So for now hold on to your purses, wallets... **Stop buying! Focus! Action! Remember??**

As for the urgent 'buy-now' tactics, this is a marketing ploy that has brought instant success to many marketers and though the majority of us use this tactic a few are really true to the word.

What really is the point to say on the salespage '7 days only', or '21 copies left' if you are planning to leave it there for the rest of the salespage's life?

Be true to your word... To your prospective customer who comes back later on. Trust is much more valuable in the long run than a quick buck.

Alright, now that I have explained the Basic Strategy for Your Rapid Success and you want a 'piece of the cherry pie', here's what follows...

# How to Make 6-Figures BIG Money Online

**PLEASE NOTE:** I will be contradicting here you might say, however my success stems from what I am about to reveal to you today. I have set up this strategy which personally has sent me up into the upwards trail and beyond. So you too are welcome to join on the marketing journey with me... And yes, money has to be spent to make money, not squandered.

## Step 1. Planning Where to Launch Your Online Business

Alright, now you need to decide where you will be launching your business from. Will it be a website? Facebook fanpage? Blogger? Twitter? LinkedIn? etc. (I am not offering you any 'push-button' launch here because 1. I need *you* to build it from the ground up so that you get to become a pro at it, and 2. The success will depend on your determination and I am here to help you if you ever get stuck – am I being hard? No, I want you to steer your ship because YOU CAN! Don't panic, it's faster than you think...

**Tool # 1,** Look what I have here....

[101 Money Making Ideas – A Easy Quick Way to Make Money Fast Starts Here...](#)

Do you see the power of this offer? Heck! For that price value you will have no need to go anywhere else my dear networking friend... and oh boy, do I have more in store for you?

But let us continue on our journey for now...

**“I don't know if this is really for me, as I have such little time to make a quick buck! Should I start with an e-Bay or Amazon store? Do you have any recommendations and if so, why?”**

This is totally up to you, what you feel most comfortable with. However, I recommend that you learn how to make a quick buck as you so eloquently put it, *while* creating a 6-figure money making business empire. How about that?

**“I get it, it's like having a vending machine but no store to put it in...”**

☺ Funny one... If you say so, yes, you can build your store as you go along.

Say you have a product or services that you want to offer by means of the Internet arena, there are a million different ways to get it out to anyone searching out there, but more on that later.

The most resilient way would be *your own website* that has been created with your character in mind (superb for business branding), then all other mini-sites, social blurbs, etc., pointing back to it... Inviting as many online viewers as possible to check out your store, your very own website.

Not only will you have more traffic this way, but 1. The search engines will notice the buzz and rank you even higher, also... 2. The amount of energy and effort you spend creating such a buzz will be worth your while if you have it stored in one place, then all it takes is for you to offer another product or service and let everyone know, and so on...

---

I recommend a website controlled by you, the business owner... domain owned by you, hosted with a reputable server provider, etc. Need help?

## Step 2. Selecting the Best Marketing Model

If you are serious, **REALLY** serious about making **BIG MONEY**, like **6-FIGURES BIG MONEY**, and you want to make it **FAST!**  
Here's the Offer!

I strongly recommend you consider Oz's [Internet Marketing Map](#). Trust me, it will be well worth it for where you are going... *You need to set up a REAL [business model](#) that fits or suits your needs.* And my good friend Oz, explains it in his 'no fluff just facts only way!' 4-Part IBM report. He has kept it at a meagre **\$17** (last time I checked) because he too has you at heart...

This is how a good, successful Internet Marketing business should be setup for maximum profit results. It is jam-packed with ideas for you to choose from which by then you will basically know which path you will be taking and what you will need... to get there.

Oz is a genius and well respected in our industry for his ability to get his points across in a very simple, analytical way. He says it like it is, and is not afraid in getting into trouble from the so called 'gurus' for exposing their greed and giving away their close-guarded secrets. He genuinely cares for the 'little man'.

Lately he has come out with state-of-the-art information products and nifty software tools for you and I to thrive in this industry. He has become part of my success and I highly endorse his products. I use almost all of them and I am always eager to purchase without flinching from him when he launches them. *I trust this valuable marketer!*

Also, being on his mailing list is an experience to behold, he truly is one of a kind...

Get [Internet Marketing Map](#) and let us continue on our journey to **6-Figure BIG Money**...

While you are waiting for it to be delivered to your mail box, I want you to do a bit of 'soul-searching' and implement this straight away...

**Tip:** Make a list of 10 things that you enjoy doing or feel comfortable with. Do you have talents or do you want to expand on your skills?

**My Example:** I enjoy talking to people on a global scale. I have lived and can speak a few languages. I enjoy teaching and see people succeed. I have a flare for art. I love cooking and the list goes on...

*Spend some time thinking and writing it down. Put the list aside for now and continue reading...*

## **MAKING MONEY is Simple and you are going to kick yourself when you find out what's needed!**

If you are totally new at Internet marketing, or simply not generating money as you ideally hoped to... then [“The Best 2012 Internet Marketing Product”](#) will definitely blow you away.

It has absolutely *everything* you need to get you excited and motivated.

Not only will it give you the 'know-how' for your business model... also, *if you purchase the Gold Membership*, you will get the opportunity to sell it to others and keep 100% of the commission... while you build your business empire 😊

Talk about a [GREAT DEAL](#) or what!

Let us briefly re-cap what you need so far...

- 1.) You need a 'storefront', your own website should be your goal.
- 2.) You need knowledge, products, services to add to your website...
- 3.) You need a boat-load of traffic, and it needs to be 'targeted' traffic where you are getting the reader ready to pull-out their wallet... that kinda traffic 😊

**Yes please! Tell me more! I am really excited!** 😊

☺ All I ask from you is to stay focussed until you complete each task, before moving to another one! That is my formula to your FIRST STEPS to YOUR SUCCESS! It is so simple. But for now, let us get to the topic of traffic...

### Step 3. Turbo Traffic on Steroids – My Back-End Power Tools

Alright, now back to the topic of traffic...

What would you rather have?

Boat-loads of traffic with say... 1% of Return On Investment (ROI)?

Or, 'targeted' traffic where you are getting the reader ready to pull-out their wallet?

**Obviously, target traffic would be the smartest thing to aim for!** ☺

Good. But I will give you a tip now. Instead of concentrating for strategies to get 'targeted traffic', why not aim to speak to that viewer as if you were talking to 'him or her only' and not to a whole crowd of viewers? One-on-one. That my friend is targeting the right kind of visitor...

**That sounds logical... If I owned a retail store, I would make sure my staff was trained to greet the customer. To ask if they needed some assistance and that they would be nearby to assist the customer if and when required.**

Precisely. Use this tactic and you will notice that it will give you that much needed profit results. And everyone will have a happy ending. A happy customer, a happy store owner. You should try it online too. Sadly though, many Internet marketers have lost touch and don't use this strategy.

Alright, now for the more serious titbits on traffic ninja tactics.

**FACT:** Either to build a money making business online, or run a physical business... You need to spend money. If you are smart, *some spending money* (not squandering) should be set aside for just that, otherwise you will be chasing after the wind for a very long time.

**WARNING!** The Following Page Is Only If You Are Serious About Getting To 6-Figuer BIG Money Business Project!

*Then continue reading... Otherwise go to ['Useful Resources' section](#) for some freebies!*

Revealing my turbo traffic on steroids with no holding back – you will find all reference links on the [Useful Resources section](#).

Take full advantage of this if you are serious on implementing these strategies for maximum traffic results.

**Remember:** You are here to get to 6-Figuer BIG Money success! So let me continue...

**IMPORTANT:** This report will be revised every 2-3 months to keep these precious 'nuggets' up-to-date as my gift to you! If you wish to download or bookmark, you are welcome. I have also provided some very useful **free** links and downloads too as we move along.

**REPEAT:** Yes, as long as this report is online, I still use them, as mentioned earlier, *they are useful to me* and 'the list of my favourite resources' is a culmination of years of hard-work and research.

*You are getting them...*

- To speed up your journey to success (you don't have to spend years like me)
- They have been tested by me and have given me awesome results!
- You will be getting 'Only The Best Quality Products' from me and my marketing partners and friends!

**Please Note:** Yes, some products do have a price tag on them... (If you are in this section looking for only freebies hoping to make 6-Figure BIG Money, then I am so sorry to burst your bubble, there is no way you will be able to get there fast! But don't worry the 'Useful Resources' page has some freebies).

**MAKING MONEY is Simple and You Are Going to Kick Yourself When You Find Out What's Needed!**

## Do you get a commission on some of them?

You bet I do.

**FACT #1:** Like you, I am an Internet marketer, my business sometimes depends on commission from other marketers and for anyone that knows me... I am honest at what I do. I do not promote or spam your email just for the sake of making a 'quick buck', I have my e-Commerce websites to do that for me, I value quality and YOU come first!

**FACT #2:** Like you, I have also struggled before to get ahead of the game. The choice is yours if you wish to purchase from my affiliate links or not... I am just saving you loads of time and giving you my wholehearted opinions and reviews of what is working for me...

It's all up to you – whether or not you wish to purchase any products or not. Or whether you have a similar product in mind. Again, it is all up to you!

*Are you still here? Let's go make 6-figures BIG money online 😊*

## FOR A WEBSITE GO HERE:

If you are totally new with Internet marketing, or simply not generating money as you ideally hoped to... then [“The Best 2012 Internet Marketing Product”](#) will absolutely amaze you.

It has absolutely everything you need to get you motivated and ready to select which path you will be taking. And if you select for the Gold Membership, you will get the opportunity to sell it to others while you build your business empire 😊

All I ask from you is to stay focussed until you complete each task, before moving to another one! That is MY FORMULA TO SUCCESS! It is so simple.

## CONTENT and PRODUCTS

If you do not have a product or service to add value to your website, then look at the **Useful Resources** section on here. I have provided some links for you to get hold of all types of goodies.

If you do not have content to write about, it is simple... There are various ways to obtain some articles, such as the article directories, PLR articles. Then you need software that does all the work for you, so that you can continue with your project's closing-touches.

Personally, I get a couple of articles on the subject and re-do them in 'general' format – example: 5 long and 5 short paragraphs. Then I let the software do the work for me – 'mix-and-mash'.

Imagine a software script that you can paste an article in and spits out keyword-rich articles however many times you want *in different lengths and varied paragraph sizes*. Which you can now use not only as drip-feed content for your website blog but also for the next tasks. Example below of why you need software to...

## The Power of Back-Linking

- Another software that... You publish one article in your WordPress blog, it automatically sends it out to hundreds of social networking sites in real time.
- Then you have another piece of software that... submits your chosen article a couple of days later to article directories.
- Another software that... Sends out your link to RSS feeders about your article that has just been posted, so that viewers can click back to your website to see what's all the buzz about.

I am done with just ONE article, wait until another gets published while I am away from my computer ☺ Get it?

**Oh boy! I want me some piece of that too...**

Oh! Did I mention... because I have made these articles in 'general' format, I can publish the same 'spun' article in another one of my websites, or even article directories and so the list grows... Tons of free traffic coming in and the search engine s will love you for it.

**Come on... enough with the suspense. Show it to me!**

Hold on to your horses pal. Did you not get it? I worked for this and you haven't. ☺

Just kiddin...

But one more thing... This is very important, so take note on what I am about to say next...

**All ears.**

Did you notice we talked about nothing else but *just* content?

We didn't even go anywhere else like video marketing, social media, etc.

**Oh! You're right.**

The reason for this is because, 1.) I need you to stay focussed with one project at a time, 2.) You get this going... you will be able to do the same with any form of marketing.

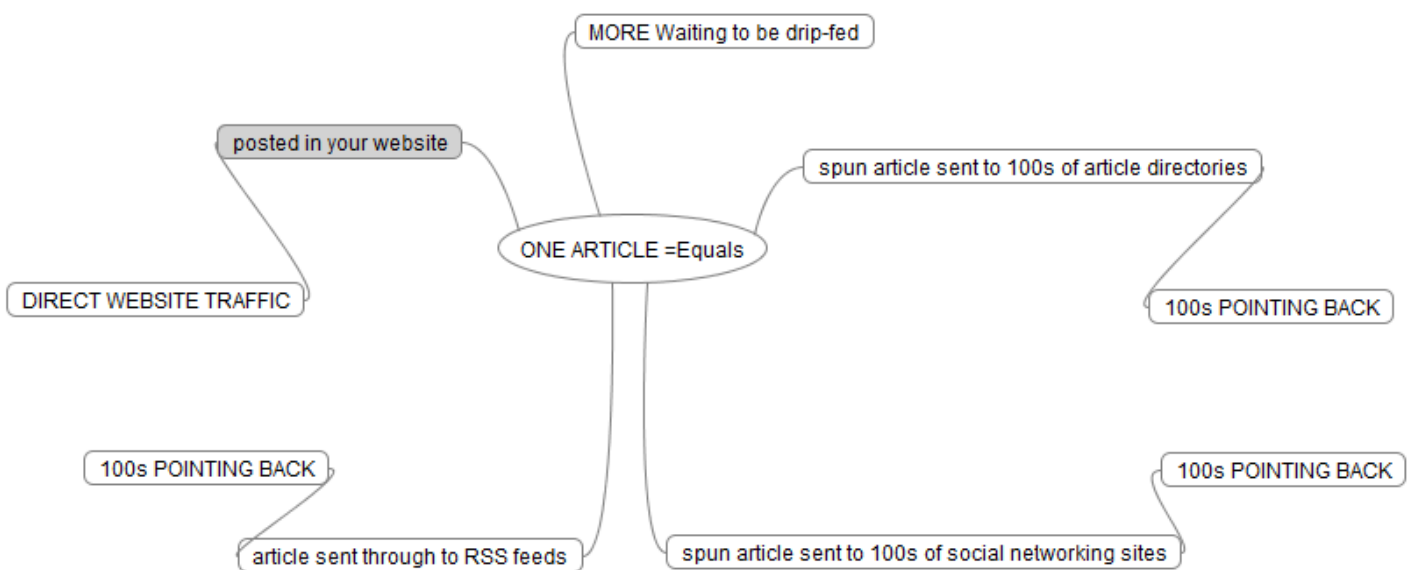

What is my formula to success?

**To stay focussed, to stop buying all these 'must-have-now' products and to complete one project at a time.**

Yep!

Next...

I need to show you the power of having software that produces boat-loads of traffic... here is the picture...

Now...

What good will it be with all this traffic if you are not speaking to your reader on one-on-one level? Telling them *why they should get it from you* and not from Joe next door. And the only way to find out is if you TRACK your links...

So you have homework to do now.

### Homework?

Yes, go back to the notepad and write a list out of:

- What is so special about your product that they should get it from you straight away?
- What is the value of your product and what are you adding to make it even extra special.
- What are *the negatives if they don't get to purchase your product?*

- What proof do you have that it has worked for others, and
- What guarantee are you prepared to give to them if they want to be refunded?

And that my friend will be *the beginning of your article content, sales-page, etc.*

## **MAKING MONEY is Simple and You Will be Kicking Yourself When You Find Out What Is Needed!**

Did I say that again? ☺

### **My FORMULA to 6-Figuer BIG Money Success!**

- Offer a product 10 times more its value
- Talk to your customer one-on-one
- Use persuasion as to why they should get your product above your competition
- Track and continually tweak your links – TEST, TEST and some more TEST!
- Ask for customer feedback in every possible occasion - testimonial, survey
- Get more traffic – both on site and back-links from authority sites
- Rinse and repeat

And that my friend... is the 'art of selling'. ☺

Anyway, as you start receiving my emails... I will start divulging some more golden nuggets that I use. But for now... you have homework.

What I have given you here is what I use to the full extent of my business. There is no secret, no mystery! It is all that you need to make bucket loads of money! Which you will soon discover when you take action, stay focussed and complete each step!

Whatever pace you are doing this... there will always be room for improvement and perseverance. Just continue doing it, don't stop.

Warm Regards ☺

## Autoresponders

[Aweber](#) [GetResponse](#) [iContact](#) [MailChimp](#) – All these offer some form of **Free** attraction, my favourite is Aweber still, and I have had great customer service with them. iContact offers Free autoresponder service for the first 500 subscribers.

**PLEASE NOTE:** *Read their terms and conditions when registering to any autoresponder.*

## Website Templates (Themes):

*As previously mentioned, you should create your own website from scratch for full control over your business's back-end online. By buying a domain and registering with a hosting provider then installing your theme....*

*Wordpress is what I personally use. They are loved by the search engines and by millions of us users. It is so easy to use, you can adjust according to your requirements and optimisation needs, countless plug-ins or scripts to choose from and extremely easy to maintain.*

[Wordpress Themes](#) – **Free** - (although there are some excellent free Wordpress themes available, I found myself hopping from one theme to another to adapt to my needs until I found two themes (**paid**). The [Socrates theme](#), which I still personally found it 'limited'. Fussy I know. ☺ As for [Elegant Themes](#), these themes are pretty awesome, and ideal if you want to spend time perfecting 'the look'. Just stunning, really professional looking websites... **Example here... [DogSense.Uk.com](#)**

As for [Profits Theme](#), I have genuinely never looked back – a versatile WordPress theme. Ideal for Internet marketing websites among others... It is always updated and it comes with a choice of themes from the creator. I am currently using it on 3 of my websites.

## Content and Traffic Magic! **These are My Traffic JEWELS\*\***

**PLEASE NOTE:** *I use these and it may sound like I am trying to tell you to get them. Sorry but I am very excited about my private collection ☺ However, I strongly suggest that in the near future you consider purchasing these OR similar ones to speed up the process of getting boat-loads of traffic to your website.*

The on-page SEO strategy - I have had much success with this strategy in the past but doing it 'manually'. I studied extensively on this subject until [SEOPressor](#), Daniel Tan's cool WordPress SEO plug-in came into existence.

[SEOPressor](#) – **is a must have WP plugin. Period!** It assists you in making sure that every page or post you publish in your website is 'keyword-rich' and it warns you if you need more keywords or if you have over done it, so as to avoid keyword spamming. This plug-in gives you better control over your keyword-rich content and search engines will continue to respect your website.

[SEOPower](#) **free** WordPress plug-in by Mark Dulisse, I have acquired this just recently (*by me, it's still in its infancy testing stage, however, I am happy with it so far*)... But because it is free, I decided to add it to my list of resources. I will certainly update you on this soon!

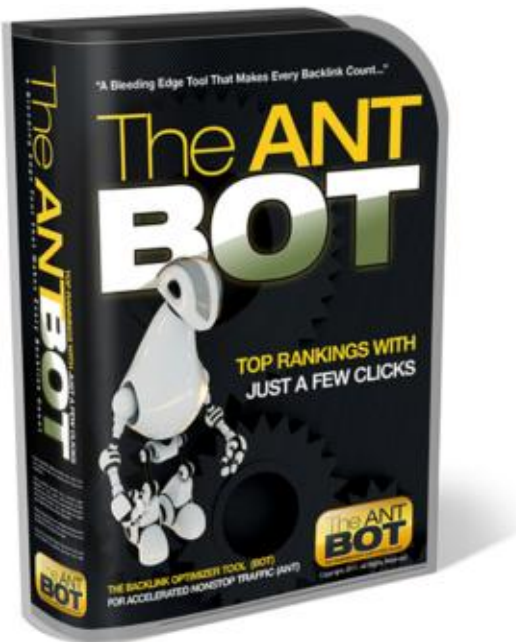

## Article Spinner

[SpinnerChief](#) – **Free** and **Paid** versions. I have used a few article spinners but have found this one easy-to-follow and I am quite happy all round. They also have a forum along with loads of tutorial videos too, so you can't go wrong.

They also have an excellent, Thesaurus library that is 'out-of-words' to explain how great this tool really is.

## Content Dripping and Back-linking software:

**Update:** I have had the awesome opportunity of the 'coolest' content/keyword tools ever!!! If you intend to have ONE article across a gazillion times without ever being duplicated, still being recognised as unique and respected by the search engines, get tons of back-links to your site, then I strongly recommend you consider purchasing these at some stage.

These are as follows: [ANT BOT](#)

My good friend Oz (*as mentioned earlier...*) This baby is worth every bit in gold. And it is under-priced so that you too can have the opportunity of making it online...

**[Get it while the price lasts!](#)** (From the last time I looked it was priced at \$11.95)

[WP Easy Content](#) – by far, the best 2010 plug-in purchase! (*Another software jewel from my good friend OZ.*) I have used other similar content dripping software 😊 and they have never come close to this. What I really like about WPEC is that it has text blocks – header and footer so that you can customise them for further SEO purposes but also avoiding being penalised for duplicate content. This tool drip feeds articles from e-zine directories or perhaps if you choose, your own articles from your computer.

As for the mention of duplicate content, the developers have just recently added an article spinner to alleviate any foreseeable issues there. Personally, I am *really impressed and happy with this plug-in.*

[DAB Digi Article Blaster](#) – This software blasts off to over 150+ directories and you get over 150 automatic back-links for every post or page that you blast on your blog/website. This works perfectly with [WP Easy Content](#) above. It is very powerful, therefore it is wise to use it only 4-5 days after you have published your post and better to use it on submitting only a handful of posts every so often so that you don't get penalised by the search engines...

[DTA Digi Traffic Accelerator](#) – Another powerful back-linking tool from Andy Fletcher of DigiResults, you download DTA to your desktop and use it from there. There is \$1 trial and then on a subscription basis. It comes with spinner script, so there is no need to worry about duplicate news from your website. This software is extremely easy to use.

[Digi Auto Link](#) – This plug-in sends top ranked links pingback automatically. What this means is, it interlinks with related articles that have the same keywords on posts or pages from other websites. Your website also gets listed and it is another way to get more backlinks to your own website.

[Backlinks Optimizer](#) is another clever way to get even some more backlinks *from your own backlinks*. Huh? Clever tactic and super-cool to have for more backlink juice.

[BookmarkLovers](#) is another similar strategy that gets backlinks from authority sites, pixelpipes and hellotext. This is for more advanced users and it can become a bit confusing for the first time user, but I found that the only way to go about it is to keep on, you will only get it right through trial and error and then it all becomes so simple. Now I absolutely love this concept...

Then I use a cool **free** tool [Social Monkee](#) everyday, 25 back-links a day – gives you 750 back-links a month.

[SECOckpit](#) – SEO keyword research tool that for me is superb when researching for niche keywords! It finds good keywords literally in seconds from DMOZ let alone Google, Yahoo or Bing. There are easy to follow video tutorials in the dashboard, and I find it runs best with Google Chrome.

#### Other Powerful plug-ins

[The Traffic Video Player](#) – Awesome tool to have for video traffic and beautiful skins to use for maximum visual effect.

## **Affiliate Marketplaces – Digital Products: (in need of a product fast?)**

*I have many more links which will be introduced as and when needed. But for now, these are 5 of the top 'must-have-accounts' with for any Internet marketer*

[Addictive Text](#) – **(Free to sign up)** Partnership program with Oz, the king of content and on-page SEO and learn to catapult your online business experience to new heights!

[DigiResults](#) – **(Free to sign up)** My favourite digital products marketplace.

[Commission Junction](#) – **(Free to sign up)** One of many places to be affiliated to for physical products.

[ClickBank](#) – **(Free to sign up)** I use it occasionally but it is not a favourite of mine, but every single Internet marketer has an account there.

[Warrior Forum](#) – Because it is the world's biggest Internet marketing forum. You can find out if a digital product is worth purchasing or not... Just follow this thread and see what they say about the 'latest' product that has been sent to your email [Internet Marketing Product Reviews & Ratings](#), as well as getting dirt-cheap offers from Warrior members as opposed to getting it anywhere else. (Be warned though, it is extremely addictive. If you find an offer that you just can't refuse, I would suggest that you wait for comments to pour in to see if the offer is worth its wait in gold or not.)

[PLRAssassin](#) – **(Free to sign up)** Personally, this site is one of the best PLR places by far! These guys are on target with up-to-date content and providing more and more resources around. And has for their monthly subscription fees... well, it's well worth the value of content.

## **More – My Miscellaneous Reading Material: (My personal reading that I refer back quite often)**

Google [AdSense Secrets 5<sup>th</sup>](#) Edition (e-Book by New York Times bestseller – Joel Comms). If you are planning to put AdSense or even banner ads on your website, this is a good e-book to read.

[Get Rich Click](#) by Marc Ostrofsky also a New York Times bestseller (physical book) stuffed with ideas, links and information. Indeed another good book to have in the library for more traffic researching ideas.

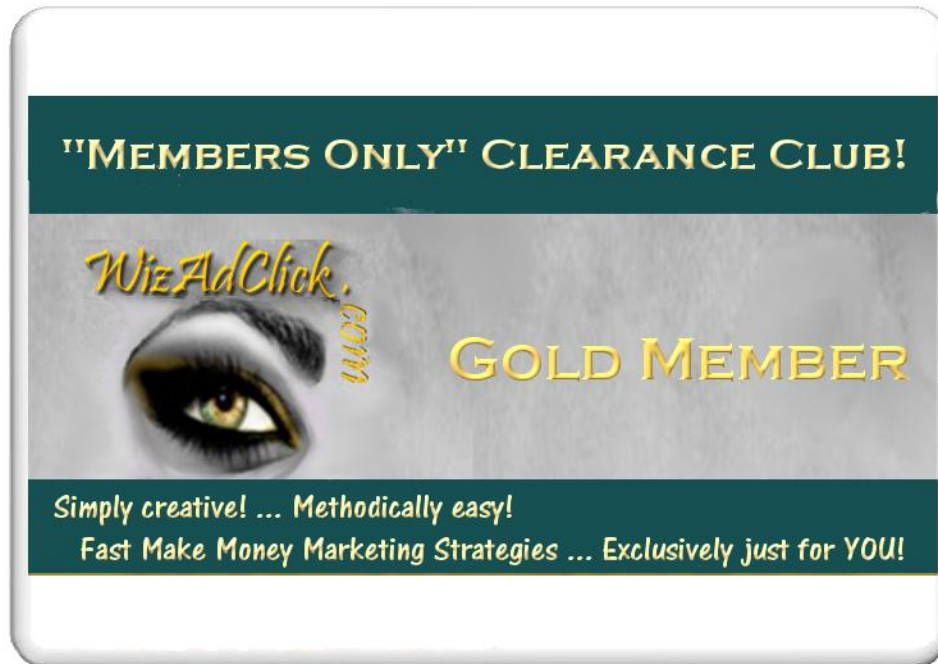

**“So then... who do you follow in terms of getting your Internet marketing to grow so successfully?”**

Good question there. There are a few Internet marketers (friends) that I have high regard for. With my IM journey experience, there are a select few that I make business with, strike up a relationship with them and see what business offer we can partner with... They are the reason for me to be where I am today. They are intellectuals in their fields and are not there to steal from you.

Interestingly though, they work behind closed doors in the Internet marketing industry and only come out when they have a genuine 'state-of-the-art' product offer. They are rich enough and really do not need your money, but they care for you.
